The Exchange is a retail organization that provides goods and services to active and retired military and their family. As a sales based interservice agency we collect transaction records of all of the sales made at registers. Transaction logs record all transactions that take place at a given store, items, price, date, time, discounts, authorizations, refunds, layaways, payments, and credit card information of customers.

There is a high risk associated with holding on to customer credit card records. According to CFR 1026.25.Z a creditor is only required to hold credit card information for 2 years. Which is the retention we are requesting.
