1	<p>After Action Reports (AAR) After Action Reports (AAR) are formal documents, intended to serve as aids to performance evaluation and improvement, by registering situation-response interactions, analyzing critical procedures, determining their effectiveness and efficiency, and proposing adjustments and recommendations. An AAR reviews all aspects of the preparations for, immediate response to, and initial recovery from serious or significant incidents or training exercises. The response and recovery from a serious incident or training exercise provides a significant test of the capabilities of the installation and community partners. The final AAR document identifies strengths, weaknesses and areas for improvement and provides recommendations for future response and recovery efforts. Types of AARs are (1) Actual Serious Incidents (includes but not limited to bomb threats, active shooter, hostage, fires, chemical spills/leaks, adverse weather conditions (i.e. hurricane, flooding), and (2) Training Exercises (i.e. full scale exercises).</p>				
1.1	<p>Training Exercises Training exercises for final AAR, including planning, execution, corrective action plan documents, and other supporting documentation that will significantly enhance the final AAR.</p>
