284.40^U DLA Criminal Incident Reporting System (DCIRS). DCIRS is a web application used for data input and retrieval concerning individuals and companies involved in criminal incidents of interest to DLA. The application allows the DLA Office of Investigations, Offices of Public Safety and their equivalents, and the DLA Office of General Counsel personnel at facilities worldwide, to report, store, update, and query DLA criminal incidents and investigation records. The DCIRS system contains Law Enforcement Sensitive and Privacy Act Protected information. **NEW**

Justification: The Omnibus Crime Control Act of 1994 requires reporting of criminal incidents to the National Incident Based Reporting System (NIBRS) maintained by the U.S. Department of Justice. Department of Defense Directive (DODD) 7730.47, Defense Incident-Based Reporting System (DIBRS), requires reporting of that data through DIBRS to NIBRS. DCIRS also satisfies requirements imposed by the Uniform Federal Crime Reporting Act (28 USC 534), the Brady Handgun Violence Prevention Act of 1994 (18 USC 922), statistical reporting requirement of the Victim Rights and Restitution Act of 1990 (42 USC 10601), and the Database on Domestic Violence Incidents (10 USC 1562). Also, DCIRS enables DLA to comply with DOD Instruction (I) 2030.8, Trade Security Controls on DOD Excess and Surplus Personal Property.

284.40S DLA Enterprise Hotline Program Data Base. The
Database is a web base application used for data input and
retrieval concerning individuals and companies suspected of
wrongdoing of interest to DLA. Each hotline is assigned a
Case Record control number and information is entered into
the database, suspense dates are established for various
actions, assigned tasks to other organizations are tracked,
and the resolution of the inquiry is recorded in the
database. The database contains Law Enforcement Sensitive
and Privacy Act Protected information. **NEW**

Justification: DODI 7050.01, Defense Hotline Program,
requires that DLA establish a Hotline Program that ensures

prompt receipt, processing, controlling, examining, and reporting, of all allegations referred through the Defense Hotline/DLA Enterprise Hotline Programs. The Database satisfies the requirements imposed by the reference.
