Section LXIV. KOREAN WIDEBAND NETWORK

Files in this section document the development of improved communications capability to satisfy the needs of the Commander U.S. Forces, Korea/United Nations Command in event of serious emergencies or crises involving the interests of the United States. The Korean Wideband Network (KWN) is a transmission subsystem of fixed and transportable facilities and is designed to provide high quality communications circuits in consonance with DCS standards. It is engineered to provide an integrated, unified, high quality, high-capacity communications network in Korea.

864-01 KWN Administrative Files. Documents relating to the routine administration of the Korean Wideband Network program, but exclusive of the specific files described in this section.

Disposition: Office of Record - Destroy after 10 years. Retire when no longer needed.

Others - Destroy when no longer needed.

864-02 KWN Group and Committee Files. Documents relating to the proceedings of groups, committees, and panels organized to resolve problems pertinent to utilization and modification of existing communications facilities in Korea, adaptation (when practicable) of Republic of Korea military communications for joint use of the allied forces, utilization of transportables on spur links, interface with DCS segments, political matters, budget matters, and other facets affecting improved military communications in Korea. Included are announcements, agenda, minutes, committee reports, and related papers.

Disposition: Office of Record - Permanent. Retire when no longer needed.

Others - Destroy when no longer needed.

865-25 DCS-EUR Solicitation Files. Papers accumulated in preparing and reviewing solicitation for required equipment which meets the specifications to operate the DCS-EUR transmission projects. Solicitations (commonly called "procurement packages") include items such as work statement, specifications, exhibit, contract data requirement list, and notes. Files consist of papers reflecting reviews, comments, coordination with the military departments, and related papers.

Disposition: Office of Record - Destroy 6 years after completion of the related contract.

Others - Destroy when no longer needed.

865-26 DCS-EUR Deployment Files. Documents relating to the deployment, location, and application of satellites and ground terminals for the DCS-EUR transmission facilities as directed by JCS.

Disposition: Destroy when superseded or no longer needed.

865-27 DCS-EUR Repair Parts/T&TE Reports Files. Reports submitted periodically to DCA by contractors to document the quantitative use of repair parts, tools, and test equipment. Reports are based on maintenance engineering analysis, contractors' experience, and procurement parameters.

Disposition: Destroy when no longer needed.

865-28 DCS-EUR Reference Paper Files. These papers relate to the DCS-EUR transmission projects and consist of:

- a. Copies of documents which duplicate the record copies filed elsewhere.
- b. Documents which require no action.
- c. Rough drafts, notes, feeder reports, and similar working papers.
- d. Cards, listings, indexes, and other papers used for controlling work.

Disposition: Destroy when no longer needed.
