Description

- 504 INFORMATION RESOURCES MANAGEMENT. Records relating to integrating and focusing a variety of activities on managing information throughout the life cycle (from collection or creation through final disposal) and each segment of it in furtherance of program and agency objectives. It involves managing data and information in such a way that program and agency managers are able to obtain and use information efficiently, effectively, and economically. To date, there is no universally agreed to definition of IRM. A single definition of IRM would be considered too restrictive by some groups and too broad by others. Under the Paperwork Reduction Act of 1980 (PL 96-511 (44 USC 3506(c)), agency information management activities include: "... planning, budgeting, organizing, directing, training, promoting, controlling, and other managerial activities involving the collection, use, and dissemination of information." The Office of Management and Budget has broad Government-wide authorities and functions (44 USC 3504) for accomplishing all purposes of the Act. The Department of Defense defines IRM as "the policy, action, or procedure concerning information (both automated and nonautomated) that management establishes to serve the overall current and future needs of the organization. IRM policy and procedures would address such areas as availability, timeliness, accuracy, integrity, privacy, security, auditability, ownership, use, and cost-effectiveness of information." The Federal Information Resources Management Regulation (FIRMR) is limited to Government-wide regulations governing agency information activities regarding the management, acquisition, and use of certain automatic data processing, records and telecommunications resources under the authorities cited (see FIRMR 201-1.102).
- 1 504.1 General. Documents relating to information resources management which due to their general nature, cannot logically be filed elsewhere in other series that apply to information resources management program areas.
- ALL OFFICES: Destroy after 3 years.
- 2 504.2 Policies and Procedures. Documents relating to the development, preparation, issuance, and interpretation of directives or regulatory instructions on information resources management or the Paperwork Reduction Act of 1980 as implemented by the Office of Management and Budget (OMB), including copies of interim policy and procedures issued prior to publication of official numbered policy publications. Includes policies and procedures providing for the timely acquisition of required information technology.
- ALL OFFICES: Upon supersession or obsolescence, place in inactive file. Destroy after 10 years.
