Schedule Subject Defense Information System for Security (DISS)

Internal agency concurrences will be provided No

Background Information This schedule resubmits schedule DAA-0361-2014-0014 under the Defense Counterintelligence and Security Agency.

The Defense Information System for Security (DISS) is a family of systems solution that replaced Joint Personnel Adjudication System (JPAS) as of March 31, 2021. DISS specifically addresses the security clearance and suitability determinations requirements of Section 3001 of Public Law 108-458, the Intelligence Reform and Terrorism Prevention Act of 2004 (IRTPA). The records within these applications are used for personnel security, suitability, fitness, access management, continuous evaluation of the subject, and National Security by providing a common, comprehensive medium to record, document, and store investigation and adjudicative documentation and adjudicative actions within the Department, federal agencies, non-DOD, and DOD contractors. These applications will provide an evaluation status, outcome, and updates of investigative and adjudicative actions and decisions from trusted information providers, requestors; provides the ability for visit requests' subjects to self-report required information; and provides the ability for the subjects to be continuously evaluated for the subject's security clearance. It is used to compile, statistical data used for analyses and studies. Decentralized access is authorized at the adjudication facilities, personnel security interfaces, services, DOD Component, approved Non-DoD agencies, and Industry security offices with a DD254 and Industry who is directly supporting continuous evaluation. As a secure, end-to-end IT system, the DISS will be the authoritative source for the management, storage, and timely dissemination of and access to personnel security information. The DISS family of systems is comprised of three components: the Case Adjudication Tracking System (CATS), the Joint Verification System (JVS) and Appeals.

DISS has also been designated as the repository for adjudicative results for Suitability and HSPD-12 determinations by the 13 July 2011 USD(I) memo "Storage of Adjudicative Results in the Defense Information System for Security." The DISS (CATS) has been designated as the DoD non-Intelligence Community IT system for case management and adjudications by the 10 April 2009 USD(I) memo "Designation of the DoD Case Management and Adjudication Systems." System Interfaces are: Scattered Castles, National Industrial Security System (NISS), Joint Access Data System (JADS), Javeline, Defense Civilian Personnel Data System (DCPDS), Contractor Verification System (CVS), eQIP, Personnel Investigation Processing System (PIPS), Defense Central Index of Investigations (DCII), Mirador, Personnel Data Repository (PDR), Accessions (NRISS, AFRISS, ARISS, MCRISS), National Security Agency (NSA), Integrated Personnel and Pay System (IPPS-A), Total Army Personnel Database (TAPDB), and National Background Investigation Services (NBIS)
