1	PRIME BEEF (PB - Prime Base Engineer Emergency Force) Records (Table 93-1) (Applicable Air Force-wide)		
	The purpose of this submission is to add a new rule 11 to cover the reports of major catastrophes and wartime support by the Prime BEEF teams. These reports at Air Force Civil Engineering and Services Center (AFESC) should be permanent records. There is much information to be gained by historians and students as well as Air Force Civil Engineering personnel from the reports of support in major catastrophes and the wartime mission of these teams. To date they have not participated in a wartime mission or a major catastrophe. AFESC has less than one foot of records on this subject. The records may be offered to National Archives in 5-year blocks when the records are 25 years old. Since the teams retain their combat readiness, they are eligible for combat mission support at any time. Personnel did participate in the building of an Air Base in Vietnam but not as Prime BEEF teams.		
	This is an addition to table 93-1 which is at NARA, dated 11 Jul 1985, job #NC1-AFU-85-35. Rule 11 should be considered along with the table 93-1 update.
