JUSTIFICATION TO ACCOMPANY SF 115 ON REVISED TABLE 144-1

We propose to revise T144-1 to conform with today's management of records pertaining to fuels, propellants, and chemicals. We renumbered some of the rules and added new ones to cover a greater variety of records that the base-level fuel activities must maintain now. Also we specify that the records involved are hard copy documents as well as those on computer disks.
