1	<p>DUE-IN ASSET MANAGEMENT AND CONTROL RECORDS (TABLE 67-2, RULES 11 & 12) (APPLICABLE AIR FORCE-WIDE)</p> <p>We want to change the record title and the disposition of the "fixed communications and electronic supply" records to "fixed communications-computer systems supply" records and "destroy 5 years after completion of action" to "destroy 60 days after completion of action." Also we want to indicate that the records are maintained by the logistics project managers rather than kept by the servicing activity.</p>		
2	<p>Furthermore, we want to add a new rule for the same type of records maintained by the storage location project custodians.</p> <p>JUSTIFICATION: The reason for these changes is that when the project installation is completed and accepted or cancelled, and all related supply actions have been accomplished, the responsibility of the headquarters and storage site responsible for these records terminates. Problems or inquiries after installation are the responsibility of the program managers who maintain the master project files. The 5-year retention for Rule 11 after the project completion serves no useful purpose.</p>		

PROPOSED CHANGE TABLE 67-2

RULE	IF THE RECORDS ARE OR PERTAIN TO	CONSISTING OF	WHICH ARE	THEN
11	Fixed communications-- computer systems supply	Lists of materials, supply documents and listings, and correspondence related to supply action against a C-CS project	Maintained by logistics project managers	Destroy 60 days after completion of action.
12			Maintained by storage loca- tion project custodians	Destroy upon receipt of project com- pletion of installation instructions from HQ EID/LGP, when kit is transferred to another storage location, or when no longer needed.
