   weather forecasting briefing records from 3 months to 15 days at the Kansas City Air Route
   Traffic Control Center (ARTCC) for period 1 Sep 75 thru 29 Feb 76.

   The Kansas City ARTCC is conducting a joint test
   with FAA on issuance of weather forecasts in
   written and audio tape format. Test is being
   conducted in two phases. Phase I will use writ-
   ten forecasts which will be retained for normal
   3-month period. During Phase II audio tapes
   will be used and retained for 15 days, with your
   approval.

   If the 15-day retention period is approved, ap-
   proximately 36 tapes will be needed ($850). If
   tapes must be retained for presently approved
   3-month period, 200 tapes will be needed at a
   cost of $4,800. Approval of 15-day retention
