## **Schedule Number: NC1-AFU-77-042**

All items in this schedule are inactive. Items are either obsolete or have been superseded by newer NARA approved records schedules.

### Description:

In 1989, Air Force submitted N1-AFU-90-003 to cover all of their temporary items in AFR 12-50, Volume II, Disposition of Air Force Records (dated 1987) under a single job number. The remaining items on this schedule were temporary items. It is assumed that the remaining items on this schedule were therefore superseded by N1-AFU-90-003.

1	Proposed change reduces retention period for certain base wire communications program (BWCP) documentation to allow destruction one year after receipt of superseding or replacement documents. Brochure is revised periodically based on data obtained at BWCP Conferences usually held on an annual basis. Brochure is kept current at all times as changes are accomplished thru BWCP Conferences and revised Brochure is distributed within 4 months following the conference. As previously approved base wire communications systems are included in each revision, permanent retention is unnecessary. Rule 14 is revised as shown on attached decision logic table. 2	Rule 16 is deleted. This rule is no longer required. Documentation described in this rule is covered in proposed change to Table 100-3, C-E Program Implementation Records, submitted on separate SF-115.
