

# INACTIVE - ALL ITEMS SUPERSEDED OR OBSOLETE

## **Schedule Number: NC1-AFU-79-03**

All items in this schedule are inactive. Items are either obsolete or have been superseded by newer NARA approved records schedules.

### Description:

In 1989, Air Force submitted N1-AFU-90-003 to cover all of their temporary items in AFR 12-50, Volume II, Disposition of Air Force Records (dated 1987) under a single job number. This schedule contains only temporary items, has not otherwise been superseded, and significantly predates the 1987 manual. Therefore it is assumed that this schedule is superseded by N1-AFU-90-003.

**AEROSPACE RESCUE AND RECOVERY SERVICE (ARRS) MISSION RECORDS (Table 64-1) (Applicable to the Aerospace Rescue and Recovery Service)**

The purpose of this submission is to revise disposition authorities for records of closed and suspended rescue and recovery missions and to establish disposition authority for certain incident logs.

Closed and suspended mission records consist of narrative logs, message reports, and related correspondence concerning missions that were closed or suspended prior to the location of the objective. Our proposed revision establishes separate series for "closed" and "suspended" mission records with parallel retention periods.

Incident logs consist of logs and correspondence pertaining to incidents which did not progress into search missions. They are used to record initial reports from FAA and other agencies of possible distresses. SAR stands for Search and Rescue; ELT stands for Emergency Locator Transmitter. A one-year retention period will satisfy our current requirements.
