

INACTIVE - ALL ITEMS SUPERSEDED OR OBSOLETE

Schedule Number: NC1-AFU-81-68

All items in this schedule are inactive. Items are either obsolete or have been superseded by newer NARA approved records schedules.

Description:

Item 355/1/19 was superseded by NC1-AFU-84-036 / 355/1/19.

In 1989, Air Force submitted N1-AFU-90-003 to cover all of their temporary items in AFR 12-50, Volume II, Disposition of Air Force Records (dated 1987) under a single job number. The items on this schedule are temporary. It is assumed that the remaining items on this schedule were therefore superseded by N1-AFU-90-003.

1	<p>DISASTER PREPAREDNESS (Table 355-1) (Applicable Air Force-wide)</p> <p>The purpose of this submission is to make changes in rules 6, 7, 17, 19, 20, and 35. In rule 6, column D is changed to "destroy after 2 years." Experience has proven that we need the documentation for an additional year to provide record of the units' capability to respond to a disaster situation. Column C entry is deleted to show these are accumulated at any level. In rule 7, column B is changed to "information copies." The disposition in rule 17 is changed from 6 months to 24 months. The 24 month retention period for documentation on radiac instruments provides the Precision Measurement Equipment Laboratory (PMEL) facility a better record of the instruments history. With this added information, the PMEL is better able to calibrate and determine the continuing status of the instruments. In rule 19, column A is changed to update the terminology to the present language; column B is changed to delete "surveying", column C is left blank to show that this covers the documentation maintained at any level. Rule 20 is changed to cover surveys. These may be destroyed when superseded or unit/installation is inactivated. Rule 35</p>	NN-170-33
