407L/412L SYSTEMS RECORDS (Table 55-9)  
(Applicable Air Force-wide)

Air Force proposes change to Table 55-9, as follows:

1 Rule 1. Permanent retirement of these computer program data is no longer justified. Once the 407L and 412L systems leave the Air Force inventory, their computer program data will be of little value. Historical records of these systems, including significant events affecting computer program and equipment changes, would be contained in overall Air Force budgets, research and development efforts, test reports and operational histories.
