 thru **Reserved.**
 3.

Item 4 concerns records of the Miami Engineer District and relates to the Airport Development Program (ADP), 1942-1948. 176 cu. ft. of records from WNRC 077-50-0174 were previously accessioned into the National Archives of the United States under job N1-77-86-2.

4. **Airport Plans, c. 1942-1948**
20 cu. ft.
WNRC 077-50Q-0174 Rolls 1-25
WNRC 077-50Q-0174A Roll 26
WNRC 077-50Q-0174B Rolls 27-29

Large scale plans of individual airports built or improved under this program, including general plans as well as runway details, water, sewage, and fuel systems and plans of individual buildings.

Disposition: Permanent. Transfer to the National Archives in 2002.

Justification: Although reduced copies of these or similar plans appear in the ADP project reports and program history and folded copies are found in other accessioned ADP series, already accessioned into the National Archives, these Airport Plans are generally larger scale, easier to read, and often marked "as built." As such they supplement the accessioned records and provide a more detailed and complete graphic record of the projects completed under the Airport Development Program.

Item 5 concerns accession WNRC 077-58-1076, records of the Military Construction Division, Protective Construction Branch and date from 1900-1953.

5. **Bomb Test and Underground Explosion Test Data Files, c. 1900-1953**
13 cu. ft.
WNRC 077-58A-1076 Boxes 1-8
WNRC 077-58B-1076 Boxes 9-11
WNRC 077-58C-1076 Boxes 12

Motion picture film, glass and film slides, still photographic negatives and prints, geologic diagrams, field notebooks, gage readings, site plans, reports, correspondence, and publications documenting bomb and underground explosion tests at various installations in the United States and overseas. Submitted by engineer districts and divisions to document construction fortification progress against the hazards of bombing,

shell fire, flame, and related forms of attack. Also included are underground explosion test data files compiled by contractors.

Disposition: Permanent. Transfer to the National Archives in 2002.

Justification: This accession includes media that are not easily evaluated in record center storage space. The Special Media Archives Services Division will carefully evaluate these media and that office reserves the right to dispose of duplicate, unstable, or other records that do not warrant continued preservation by the Federal Government. That office may also choose to alter the format of certain records. It is assumed, however, that selected photographic, graphic, and textual records that document and analyze these tests will warrant continued preservation by the Federal Government.

Items 6 through 9 concern American bridges and date from c.1950-1960. These records are accretions to similar bridge files previously accessioned to NWCT under RG 77.

6. **Civil Works Bridge Files, c. 1952**
33 cu. ft.
WNRC 077-58L-1075 Boxes 644-676

Information regarding bridge location and regulations. War Department 823 decimal series (Bridges and similar structures). Arranged alphabetically by waterway (Abescon Creek, NY to York River, VA).

Disposition: Permanent. Transfer to the National Archives in 2002.

Justification: This series documents the execution of the Corps of Engineers' legal responsibility for the approval and regulation of bridges over the navigable waters of the United States. This responsibility was transferred from the Corps of Engineers to the U.S. Coast Guard in 1967. These records would be of great interest to the Historic American Bridges Survey (HABS), engineering and local historians.

7. **Civil Works Bridge Files, c. 1950-1960**
7 cu. ft.
WNRC 077-60R-1169 Boxes 74-79
WNRC 077-60A-1170 Box 1

Correspondence, applications, reports, and plans relating to the construction and modification of bridges over navigable waterways. Arranged alphabetically by bridge name. Created and maintained in the Civil Works Division.

Disposition: Permanent. Transfer to the National Archives in 2002.

Justification: This series documents the execution of the Corps of Engineers' legal responsibility for the approval and regulation of bridges over the navigable waters of the United States. This responsibility was transferred from the Corps of Engineers to the U.S. Coast Guard in 1967. These records would be of great interest to the Historic American Bridges Survey (HABS), engineering and local historians.

8. Bridge Regulation Files, 1953-1957
4 cu. ft.
WNRC 077-61A-1547 Boxes 66-69

Regulation governing operation of drawbridges over navigable waterways. Includes public hearing transcripts and monographs from local fishermen. Arranged alphabetically under War Department decimals 823.01.

Disposition: Permanent. Transfer to the National Archives in 2002.

Justification: This series documents the execution of the Corps of Engineers' legal responsibility for the approval and regulation of bridges over the navigable waters of the United States. This responsibility was transferred from the Corps of Engineers to the U.S. Coast Guard in 1967. These records would be of great interest to the Historic American Bridges Survey (HABS), engineering and local historians.

9. Alteration of Obstructive Bridges (Relocations), c. 1950-1960
6 cu. ft.
WNRC 077-65B-3170 Boxes 11-14
WNRC 077-66E-3192 Box 6
WNRC 077-67C-4793 Box 14

Contracts, correspondence, plans and other records relating to the modification of bridges over navigable waterways. Arranged alphabetically by District and Division name. Created and maintained in the General Counsel Division.

Disposition: Permanent. Transfer to the National Archives in 2002.

Justification: This series documents the execution of the Corps of Engineers' legal responsibility for the approval and regulation of bridges over the navigable waters of the United States. This responsibility was transferred from the Corps of Engineers to the U.S. Coast Guard in 1967. These records would be of great interest to the Historic American Bridges Survey (HABS), engineering and local historians.
