|-------------|--|----------------------|-------------------|
| 1 | Duplicate set of design memorandums, specifications, and analyses of design pertaining to six main stem dam and reservoir projects on the Missouri River; flood control projects in the U.S. Army Engineer District, Omaha; and any new such projects or modifications to existing ones. Records are currently being destroyed one year after the project is abandoned, the structure is removed, or control passes from the Chief of Engineers. This means these records are kept for over 10 years, some over 100 years. | | DISPOSAL APPROVED |
| 2 | Record copies of records described in item #1 maintained in area offices and sites of the Omaha District. Records are permanent and are retired on removal of structure, abandonment of project or when control passes from Chief of Engineers. | | DISPOSAL APPROVED |

Continuation of 6B

For Records in item #1:

Records will be filmed in accordance with 41 CFR 101-11.507(c)(1)). Disposal authority for these records is requested in accordance with 41 CFR 101-11.507(b).

For Records in item #2:

The film will meet standards of 41 CFR 101-11.504. One silver master positive and one positive copy will be furnished to the Federal Records Center, Kansas City, MO at the time when film replaces the record copy. This will occur at various intervals as paper copies are deteriorating. Facilities meeting the standards of 41 CFR 101-11.506 will be used to store the silver original microfilm.

~~This copy will be retired in lieu of the paper records.~~
 Four copies, including original, to be submitted to the National Archives and Records Service
