This SF 115 is based upon an examination of the records of the 1st US Army, which Army has offered to the National Archives. The same series are found in the records of the other five numbered, Zone of the Interior (ZI) Armies, and, therefore, the disposition standards contained in this SF 115 will be applied to all ZI Armies.

Items 1-30 cover series that are proposed for permanent retention. Items 31-54 are proposed for immediate destruction. The bulk of this material is located at the National Personnel Records Center, but security classified records were transferred to WNRC in 1977. Item numbers followed by a single * refer to records that are located at WNRC only. Item numbers followed by ** refer to records with an unclassified segment located at NPRC and a security classified segment stored at WNRC. Item numbers that are not followed by a single or double * refer to records stored entirely at NPRC. Attached to this SF 115 are memos by Dan Rooney that provide additional information concerning the records held at NPRC as well as a memo by Jerome Nashorn, which describes the security classified records located at WNRC.
