 Minor Subdivision                      **Rock Island District Office**  
 Schedule Subject                      **Rock Island District Office Project Files-Aerial Photography**  
 Internal agency concurrences will be provided      **No**

Background Information                      **The U.S. Army Corps of Engineers is organized geographically into eight permanent divisions. Within each division, there are several districts. Districts are defined by watershed boundaries for civil works projects and by political boundaries for military projects. The Mississippi Valley Division (MVD), reaches from Canada to the Gulf of Mexico and is divided into six districts one of which is the Rock Island District. The primary purpose of the Rock Island District is to partner with stakeholders in the management of the watersheds of the District in order to meet the national and regional needs of navigation, flood risk management, emergency management, ecosystem restoration and regulation, recreation, water supply, land management and national security. This schedule is submitted to provide a "one-time" disposition for a specific series of aerial film held by the Rock Island District office. It is not intended to cover any other records such as maps, charts, plans, or textual records normally associated with District projects.**
