Background Information

The Performance Review Interface for Managers and Employees (PRIME) supports the automation of the Total Army Performance Evaluation System (TAPES). PRIME is a critical part of the process that results in pay raises and bonuses for over 3,000 government employees. Its data comes from the MODERN database (DCPDS) as well as from its users. Its outputs include performance reviews and ratings, bonus and salary action information, as well as numerous reports and management tools. This tool is utilized by personnel of the Software Engineering Center (SEC) and the Communications Electronic Research, Development, and Engineering Center (CERDEC). In February 2011, the Edgewood Chemical and Biological Center (ECBC) and the Natick Soldier Research and Development Center (NSRDEC) began using PRIME.

Inclusive dates are from 2011 to present.

Input data is covered by RN 25-1kkk, Input Source Records.

Outputs: Automated system administrative outputs and reports use RN 25-1lll, Information technology system administrative reports.
