Background Information Army Regulation (AR) 570-4, Manpower and Equipment Controls, Manpower Management, implements Department of Defense Directive (DODD) 1100.4, Guidance for Manpower Programs. It establishes civilian and military manpower management guidance for activities organized under tables of distribution and allowances (TDAs), modification tables of organization and equipment (MTOEs), and related augmentation and mobilization manning documents. In accordance with AR 570-4, the Assistant Secretary of the Army (Manpower and Reserve Affairs) (ASA(M&RA)) is responsible for and has approval authority for all manpower policies in the Army. In carrying out this responsibility, the ASA(M&RA) provides guidance and direction concerning manpower management to all Army activities.

In support of AR 570-4, The Army Materiel Command submits for disposition the Distribution and Allowance (DNA) System.

1	<p>The Distribution and Allowance (DNA) System</p> <p>The DNA system is an Oracle Web based system used by the HQ, Army Sustainment Command (ASC) and HQ, Joint Munitions Command (JMC) for maintaining personnel, manpower, and budget information. As such the system is used across organizational lines to include G1, Manpower, and G8. G1 has the responsibility for maintaining personnel information for the commands. DNA communicates with the JMCs Employee Development System (EDS) and TACOMs Total Employee Development (TED) System that ASC uses for training. DNA has the capability to track manning documents, appraisal information, awards, acquisition data, security clearance information, key/Emergency Essential (EE) positions and drug testing information. The system is used to ensure timely actions for upward mobility promotions, Within Grade Increases (WIGIs), performance standards/appraisals, and manning documents for strength accountability. The system also provides standard and unique reports in order to keep the Command group informed on personnel matters. Manpower has the responsibility for tracking strength, Table Distribution and Allowance (TDA), and Program Budget Guidance (PBG). DNA is capable of tracking on-board strength, TDAs, PBG, and monthly execution (Army Management Structure Code (AMSCO), Management Decision Package (MDEP)). These reports assist Manpower in conducting analysis and providing reports to the Command group. From a G8 perspective, this system is used for tracking budget requirements, pay of people, and Standard Operation Maintenance Army Research and Development System/ SOMARDS Job Order Number (SOMARDS/SJON) reporting. DNA integrates Personnel/Manpower for complete resource tracking/reporting. This system has the capability to track all of these fields of information, which allows the system to provide several standard reports and/or create unique one of a kind reports for special projects/assignments. DNA allows for real time reporting of information for our entire command. The DNA system is also used to track this same information for all ASC/JMC off-site locations. This provides the Commands with total personnel accountability of over 7,000 military and civilians, worldwide for ASC/ JMC missions. Inclusive dates are 2003 to present. Source input is keyed into the system which includes Included are name, SSN, service comp date, DOB, grade/ step, salary, type of employee and work schedule and are approved for disposition under RN 25-1kkk/400B(0-6). System documentation includes record layouts, specifications and code books which are covered under 25-1mmm/ 400B(0-6). Output includes: On-board strength, Table Distribution and Allowances, Program Budget Guidance, and monthly execution (Army Management Structure Code (AMSCO), Management Decision Package (MDEP) reports and standard and/or unique one of a kind reports for special projects/assignments. Automated system administrative outputs and reports use RN 25jjjjj/400B, Information Technology.</p>
