Sequence Number

1 **General Officer Pistol Program (GOPP) System**
The purpose of the GOPP is to provide the Army with a database system that is used to manage the assignment of pistols assigned to Army officers promoted to General, from initial assignment until retirement. Army General Officers in the Program must log on to the database annually to certify/recertify the location/status of their firearms purchased and tracked via the GOPP system. Source input is keyed into an online form through the application by the general officer which includes name, shipping address and email address and is approved for disposition under RN 25-1kkk/400B(0-6). System documentation includes record layouts, guidelines, specifications and code books which are covered under RN 25-1mmm/400B(0-6). Outputs include emailed hand receipts, reports of pistols issued, lost/stolen pistols and general officers on active duty who have been issued a pistol. Automated system administrative outputs and reports use RN 25-1jjjj/400B, Information Technology. Inclusive dates are 1999 to present.
