Background Information AR 115-13 provides policies and procedures for creating, maintaining, and managing geospatial information and services in support of the installation and environment domain.

The proponent of this regulation is the Army Assistant Chief of Staff for Installation Management. In support of AR 115-13, the Army Materiel Command, CECOM, submits for disposition the TYAD-GIS Master Files. The Geographic Information System is based on GIS-ARC software and uses satellite images to provide a baseline for the graphical representation of the installation. The system supports all geographic information for the Depot that complies with Army Spatial Data Standards for Facilities, Infrastructure, and Environment (SDSFIE).
