Records Schedule Items

<b>Group Title</b>	Test Measurement and Diagnostic Equipment (TMDE) - Master File, RN 750-431
<b>Group Description</b>	TMDE is a web based system with <a href="https://CMTOOL.army.mil">https://CMTOOL.army.mil</a> .
	The following applications are used to support the system:
	Calibration Sets (CALSETS) will provide Equipment and Procurement Documentation, Equipment Inventory Process (both CALSETS and end users), Software/Patch download, Video Training Materials, Picture Galleries, Configuration Management Database for all calibration equipment (including end-user visibility to engineering change proposal (ECP) process) reporting capabilities.
	The Maintenance Support Devices and the Next Generation Automatic Test System will support the lifecycle management, vendor integration to support tickets, notification emails and help documentation (e.g. FAQs, knowledge base articles) AR 750-43 process support.
	TMDE Register application is for the Department of the Army (DA) Preferred Items List database, which contains equipment names, specifications, pictures/drawings, prices, point of contacts, acquisition requires/approval statuses etc. It is used to provide an easy, expeditious way to determine available TMDE to reduce proliferation and to make procurement decisions.
	Input: source directly via keyboard and imported from another electronic source. Output: Information is provided on screen and electric files.
