✓	Acquisition Information Management and Report System (AIMARS) Files BACKGROUND AND ADDITIONAL INFORMATION: The Acquisition Information Management and Report System is the U.S. Army, Research, Development and Engineering Center (ARDEC) internal tracking system for acquisition data. The Acquisition Information Management and Report System is a database system that captures contract and procurement information and allows it to be utilized as a management tool by procurement technicians, contracting officers, and business specialists. Inputs to the system are extracted from the Standard Operation Maintenance Army Research Development System (SOMARDS) and the Standard Army Automated Contracting System (SAACONS). Consolidated quarterly and yearly reports are created only for internal business purposes. a. Source of data for the system: Record sources used to populate Acquisition Information Management and Report System are Funding Document 1095 and DD Form 350, Individual Contracting Action Report. The Acquisition Information Management and Report System source information is scheduled under file number (FN)25-1kkk. <i>Agency, NWMW, NR</i>
