	<p align="center"><u>In-Processing (INPROC) System</u></p> <p>Background and Additional Information: The Military In-Processing (INPROC) system automates procedures for ensuring that a soldier and family members are correctly and efficiently in-processed at the installation and to review and correct all soldiers readiness and emergency data requirements. This system is used Armywide in every installation. The processing system was designed to automate the procedures required to accomplish the functions and task identified in Army Regulation 600-8-101. The information consists of scheduling in-processing appointments and producing DA Form 5123-1-R Personnel In-processing Record. The INPROC is the automation of DA Form 5123-1-R, In-Processing Personnel Record and the data there on. The outputs consist of the completed DA Form 5123-1-R which is sent electronically to the Standard Installation Division Personnel System (SIDPERS) as a transaction. The output is kept on file at the soldier's unit/battalion PAC. Source of data for the system: Information used to populate the INPROC System is gathered from DA Form 5123-1-R. Source information is scheduled under File number (FN) 25-1kkk.</p> <p>Note: Use 25-1mmm for system documentation and specifications, and 25-1nnn for backups.</p> <p align="center"><i>Agency NUMW NR</i></p>
