7 Item Number	8 Description of Item and Proposed Disposition	9 GRS or Superseded Job Citation	10 Action taken (NARA Use Only)
	<p style="text-align: center;">AR 70-1, Army Acquisition Policy</p> <p>Background Program Control System (PCS) II is a program management tool that aggregates data from a variety of official sources in turn providing a dashboard/reporting tool for management. Data from external sources includes schedule, cost, risk, contract data requirements list (CDRL) items, and milestone information. This information is used by personnel participating in the total integrated product/process team (IPT) including the product management office (PMO), contractor/subcontractor, and customer. The PCS provides easily readable graphics charts that are connected to the actual data files.</p> <p>System inputs are structured electronic data from a variety of sources. Sources include contractor schedules, CDRL metadata, risk, logistics readiness, cost/earned value management (EVM), and critical path/analysis. The inputs are delivered via web services (push/pull) and file uploads.</p> <p>The proponent of this regulation is the Assistant Secretary of the Army for Acquisition, Logistics and Technology (ASA/ALT).</p> <p>RN 70-1tt                      Title Program Control System (PCS) II Master File                      Authority TBD                      PA TBD                      Description System contains stored and processed data for the entire weapon system's life cycle.</p> <p>Disposition KEN Event is on supersession, obsolescence, or when no longer needed for reference. Keep until event occurs and then until no longer needed for conducting business, but not longer than 6 years after the event, then delete.</p> <p>NOTE Use record number (RN) 25-1111 for automated system administrative reports, RN 25-1kkk for source/input records and RN 25-1nnn for backup files, 25-1mmm for automated system documentation and specification files.</p>
