	Request authority to establish the above disposition standard for tactical or combat telecommunications project files. This request was originally submitted to you for approval in May of 1976 (NC1-AU-76-33). It is being resubmitted per your instructions to separate the policy records from the technical records and establish a definite retention period for the technical files. AR 340-18-11 does not include an appropriate file number which covers these records. These files accumulate at installations and activities throughout the Army and docu- ment the design, construction, and operation of Army combat telecommunications systems.
