	<p><u>Dependents, retired military and Department of the Army civilian client files.</u> Destroy all client records in accordance with para 10, AR 340-16, one year from date client terminates participation in the Alcohol and Drug Abuse Prevention and Control Program (ADAPCP). (Exception. If individual client records are part of a current research/program evaluation project they may be retained beyond this one year period provided all client identifying data are expunged and that all client records are destroyed in accordance with above instructions upon completion of that research/program evaluation project).</p> <p>Current disposition instructions (immediate disposition by destruction of client records upon termination of ADAPCP client status) does not allow for adequate retention of client records to insure continuity of client care or for completion of research/program evaluation projects that may currently be in progress. The exception requested to retain client files which are part of a research/program evaluation project beyond the one-year period until completion of the project generally would entail an additional retention period of three to four months. Paragraph 10, AR 340-16 prescribes the destruction of the records by tearing into pieces so as to prevent disclosure of contents. DA Form 4465 cited in the disposition of active duty military client files is the ADAPCP military client intake and followup record.</p>
