the records of that command as a film collection and not as a combined film and paper collection, we recommend approval of Job NC-AU-75-19.

The draft memo to Mr. Pomrenze seems to satisfactorily state our position that an agency can pretty much have its way in filming disposable records but must send us separate requests for each disposal filming project on permanent records. We suggest that the last sentence of paragraph 3 be changed to read as follows: "We request, however, that disposal jobs involving microfilming of permanent records be submitted by specific project and that they generally encompass an entire file for specific periods of time rather than records under isolated file numbers."
