**SECTION III - APPRAISER'S COMMENTS**

Equipment Name Files (FN 1304-07) consist primarily of correspondence generated during the proposal, coordinating action, and approval of popular names for major items of development equipment.

These records result from execution of the procedures specified in AR 70-28. They accumulate at an estimated rate of 1/2 cubic foot per year; about five cubic feet now exist. The arrangement is alphabetical by popular name of equipment.

Although this series has been cited in AR 340-18 as "permanent" within certain offices, it actually has been unscheduled (NCD letter of April 19, 1984, and Enclosure 3 of that letter). This proposed disposition would schedule this series in an acceptable manner and should be approved.
