SECTION III - APPRAISER'S COMMENTS

Mapping and Geodetic Conference Files (FN 515-10) document conferences having international or domestic interagency membership which concern the cartographic and geodetic activities of member organizations. Included are conference reports, records relating to the standardization of mapping procedures, decision documents on cartographic and geodetic matters, and other documents pertaining to operational relationships and areas of responsibility.

It is proposed that these records become permanent at the offices with Armywide responsibility for such conferences. Conference records would be temporary at other offices. Equivalent Defense Mapping Agency records are scheduled similarly under entry 801-03 of DMA Manual 5015.1 (disposition job NC1-456-82-1).

As this proposed disposition is in response to a NARS recommendation that certain Army mapping record dispositions be consistent with those of the Defense Mapping Agency, it is appropriate for NARS to approve this disposition request.
