

INACTIVE - ALL ITEMS SUPERSEDED OR OBSOLETE

Schedule Number: NC-052-76-001

All items in this schedule are inactive. Items are either obsolete or have been superseded by newer NARA approved records schedules.

Description:

All records are presumed to have been destroyed. It is likely that these records were never entered into NARS-5 at its launch in 1975. The original draft of this schedule was dated November 6, 1975, and stated three reasons immediate disposal was necessary. The third reason was "Because of a reshelving project now underway at the Military Center, it will soon be necessary to move and temporarily store these files, an especially difficult and time-consuming task since the files are housed in around 20,000 archives boxes. More importantly, as a result of the fire at the Military Center in July 1973, the 7,500 cubic feet of shelf-space required to store these files is sorely needed for personal jackets." Everyone involved in processing this schedule had a vested interest in disposing of the records as soon as the schedule was signed.

1.	<p>One-time, immediate disposal authority is sought for the records described below, as having ceased to have further administrative or reference value sufficient to justify their continued retention. The records are stored at the National Personnel Records Center (Military Personnel Records), St. Louis, Missouri.</p> <p>The inpatient treatment (clinical) files of naval medical facilities dating from 1914 through 1939, comprising some 7500 cubic feet of individual case records, together with bound case number registers used as finding media.</p> <p>(Under authority provided by National Archives disposal job number NN-166-187, the above-described case files for civilian personnel are disposable when 25 years old, and those for Navy and Marine Corps personnel when 50 years old. Since case files accumulated during this period were not segregated into civilian and military personnel categories, and it is not now considered practicable to segregate them, it is proposed to dispose of this entire series at this time. Reference to the cases in the series is infrequent -- less than ten annually. This infrequent reference is not considered to justify retention of the series for the longer, 50-year, retention period authorized by job number NN-166-187 for the cases involving military personnel. Accordingly, with the concurrence of the Chief, Bureau of Medicine and Surgery, this one-time disposal authority for this collection is requested.</p> <p>The official military personnel medical (health) records will continue to be retained as permanent records.</p>	II-166-187
