Major Subdivision	Naval Sea Systems Command (NAVSEA 08)
Minor Subdivision	Naval Nuclear Propulsion Program (NNPP)
Schedule Subject	SSIC 9210, Naval Nuclear Propulsion Information Records.
Internal agency concurrences will be provided	Yes

Background Information

**Background:** Records generated by the Naval Nuclear Propulsion Program (NNPP) document the design, manufacture, maintenance, and disposal of naval nuclear propulsion plants, materials, hardware and associated processes. These records contain sensitive military information on naval nuclear propulsion matters, subject to control under federal export control statutes. The NNPP stores these records onsite and at the Washington National Records Center.

The NNPP must control and have immediate access to records to execute the program regulatory responsibilities to protect public health and safety and to support the active operating fleet for the life of the ship reactor core and life of the ship class. In addition, the NNPP uses the original research, development, and operational data contained in legacy documentation for subsequent design of new propulsion plants. Further, the Program is responsible for spent nuclear fuel until final disposal. While the Government is evaluating disposal alternatives, the specific permanent disposal date is not currently known.

Based on the continuing need for NAVSEA 08 control of program records, NAVSEA 08 requests a change in the retention period to 80 years. When the records are no longer in use, NAVSEA 08 will identify this to records center personnel, and arrangements can be made at the time for transfer for permanent retention at NARA.

Note that records in this schedule were also created by and at the direction of NAVSEA 08 under RGs 19 and 181.
