**NOTE:** This schedule ONLY applies to S-3 records.

The purpose of this records schedule is to request legal disposition of the Naval Air Systems Command (NAVAIR) records relating to the S-3 aircraft. Included are databases not previously scheduled according to N1-NU-84-2 and identified in SECNAV M-5210.1.

The S-3 Program Office is being decommissioned effective 30 September 2009. These records span from 1952-2009 and relate to S-3 weapons and materials and to the development and readiness of these weapons and materials for all naval forces. They are accumulated by aeronautical activities and offices and by units and departments or activities and offices that are concerned with aeronautical and astronautical materials and related functions for the S-3 program.

Special media records (audio visual and still photos) are excluded from this schedule and have been sent direct to Defense Visual Information Center (DTIC) at the following address:

Defense Visual Information Center  
Attn: Motion Media Records Center  
23755 Z Street Bldg 2730  
Riverside Ca 92581-2717  

At the time of transfer of the S-3 records, the following Department of Defense (DoD) Distribution statements apply to certain SSICs, identified within the S-3 Document Archive System (DAS):

- Distribution A – Approved for public release
- Distribution B – Distribution to U.S. government agencies only
- Distribution C – Distribution to government agencies and their contractors only
- Distribution D – Distribution to DOD and U.S. DOD contractors only

Distribution F – Further dissemination only as directed  
Distribution X – Distribution authorized to U.S government agencies and private individuals or enterprises eligible to obtain export-controlled technical data in accordance with DODD 5230.25  

| 1 | General Aeronautical and Astronautical Material Records - Files consist of the S-3 Resource Allocation Management Program (RAMP) for documenting aircraft by bureau number with specific configuration/capabilities  
(Database is unclassified)  

Disposition – Permanent  

a S-3 Resource Allocation Management Program (RAMP) Database. The Resource Allocation Management Program (RAMP) system was developed as a standalone database for the S-3 program from 1997-2000. The system was fielded for program use in 2000 and was in continual operation until the last forward deployed aircraft returned from cruise in 2006. RAMP was developed as a long range planning and forecasting tool to help PMA-290 manage their aircraft inventory. It functioned as a single source for pertinent program data. Data tracked consisted of all aircraft, aircraft major modifications, major aircraft depot events, Engineering Change Proposals, Technical Directives, commitments, and high level aircraft configurations.  

The RAMP database is MS SQL with a Power Builder GUI front end for data maintenance. All output reporting is presented in MS Excel. All RAMP database files will be delivered to NARA as text delimited flat files.

**S-3 Document Archive System** – The S-3 Document Archive System (DAS) Application and Relational Database is a storage and indexing system for the maintenance of archival metadata. DAS provides the capability to search and select one or many records from the database and the capability to copy selected archival files to another location. DAS produces reports which can be used as indexes for selected files and launched through MS Word and MS Excel. Included are a main table and look up and error capture tables. Data elements include table, description, file name, primary key, unique key, field, field description, data type, and size. [Records are unclassified.]
