Revised April, 1975
Prescribed by General Services
Administration
FPMR (41 CFR) 101-11.4

REQUEST FOR RECORDS DISPOSITION AUTHORITY (continued)

In view of the non-retrievable state of the records (film and paper), it is requested that approval be granted to index and retain the paper originals and destroy the film. This is the most practicable solution and will provide a useable product for NAVSEA and for NARS and will comply with 41 CFR 101-11.

Item 1. Disposition of microfilm: Destroy immediately.

Item 2: Disposition of original paper files: Permanent. Offer to NARS with index when 30 years old.

Addenda agreed to by Margaret Daymude, OPNAV, In telephone conversation on March 3, 1982.

Robert Storm, NCD, 3-3-82
