	<b>Joint Staff Electronic Information System</b> (See attached – Witness Index Tracking System (WITS))		

**Name of System:**

Witness Index Tracking System (WITS)

**Description of System:**

The WITS system is a tool used to track and maintain information on Joint Staff Witnesses who have appeared before Congressional Committees or Sub-Committees while providing the Office of the Chairman of the Joint Chiefs of Staff (OCJCS) statistical information regarding their appearances. In addition, WITS contains information on how many Questions for the Record (QFRs) and Inserts for the Record (IFRs) are associated with a particular witness's testimony, which committees witnesses have appeared before, and whether the transcript or statement has been routed to the various directorates and/or external offices for review.

Originally created in 1999 as an MS Access database, WITS currently exists in an Oracle environment and contains classified information. The Office of the Legislative Assistant (LA) within OCJCS has primary responsibility for the system.

~~1. **Inputs:** Information includes but is not limited to the Joint Staff Action Processing number, date of Congressional appearance, witness name/rank/title, name of committee, subject of hearing, classification of material discussed at hearing, and any remarks from the Office of the Chairman of the Joint Chiefs of Staff/Legislative Assistant Action Officer that are manually keyed into WITS.~~
