	<b>Joint Staff Electronic Information System</b> <b>(See attached – Anti-Terrorism Enterprise Portal (ATEP),</b> <b>Unclassified and Classified versions)</b>		

**Name of System:**

Anti-Terrorism Enterprise Portal (ATEP)

**System Description:**

ATEP is a web-based portal that supports the Joint Staff, Services, Combatant Commands, and other DOD Agencies by functioning as a "1-Stop Shop" for Defense Anti-Terrorism and Force Protection Information. Antiterrorism reports, instructions, publications as well as training information can be found on ATEP. System users have the ability to upload and maintain information on various "community" pages where other users can then view, download, print content, and participate in discussion forums. Access to the system is dependent upon obtaining access to the Army Knowledge Online (AKO) site and, if needed, permission from a sponsoring agency.

As currently configured, ATEP is used to post non-record copies of information for reference and comment purposes and can be uploaded in the form of Microsoft Office files, PDF files, and data that is manually entered by the user.

Created in 2003, ATEP previously existed on both the DOD NIPRnet and SIPRnet as a web-based portal in the Joint Staff Decision Support Environment. In 2009, ATEP was migrated to the classified and unclassified Army Knowledge Online (AKO) web portals which have site maintenance and hosting responsibility. ATEP information on the AKO sites is classified up to SECRET on the SIPRnet and Unclassified on the NIPRnet site. The office of responsibility for ATEP data is the Deputy Directorate for Anti-Terrorism/ Homeland Defense (DDAT/HD), J-34, Joint Staff.

**1. Inputs:**

Inputs consist of but are not limited to data that is both manually entered, such as discussion forum entries or announcements, or uploaded to the AKO ATEP page in the form of Microsoft Office Documents or PDF files such as rosters, instructions, and training information.
