Records Schedule Items

Sequence Number	
1	<p>Automated Stopper and Referral System (ASARS) ASARS is the Department's enterprise system for administering the Priority Placement Programs (PPP). ASARS provides automated, on-line tools for registering PPP participants (hereon, program registrants) and matching those program registrants with available positions. It is used by DoD civilian personnel offices (1) to assist their activities in filling vacant positions and in assisting program registrants in obtaining employment, and (2) to provide resumes to DoD activities for use in assessing qualifications for vacant positions. It is also used as a management tool for statistical analysis, tracking, reporting, evaluating program effectiveness, and conducting research. SYSTEM INTERFACES: ASARS receives Personally Identifiable Information (PII) from the Defense Civilian Personnel Data System (N1-330-10-002 DCPDS) via an extract. PRIMARY INPUTS: Include but are not limited to: full name, DoD identification (ID) number, mailing address, email address, telephone number, salary, occupational experience, education, training, type of appointment eligibility, and preferences for occupational series, grades and duty locations. Data imported from DCPDS data extracts include but are not limited to email address, and physical address, as collected from the individual at the time of registration into PPP. OUTPUTS: Position matches, matching program registrants with open positions available in the Department. GRS 20 Item 16. DOCUMENTATION: Data systems specifications, file specifications, codebooks, record layouts, user guides, output specifications, and final reports (regardless of medium) relating to a master file, database or other electronic records.
