	<p><u>Permanent Collection:</u></p> <p>National Assessment of Educational Progress (NAEP) Magnetic Computer datatapes Microfiche of machine-readable documentation (42x) Microfiche of respondent instruments (Booklets) (24x)</p> <p>"NAEP is a continuing survey of the knowledge, skill, understanding and attitudes of young Americans. Each year 75,000 - 100,000 persons are assessed in one or more learning areas normally taught in schools. Subjects include: art, career and occupational development, citizenship, literature, mathematics, reading, science, social studies, writing and several other areas on a smaller scale. The age groups assessed since 1969 are 9 year-olds, 13 year-olds, 17 year-olds and young adults aged 26-35. Not all ages are surveyed each year nor are all subject surveyed each year. About 25% - 50% of the items asked in one collection cycle are "unreleased" and reused in a subsequent collection cycle, so that for 2nd, 3rd and subsequent collection cycles some common items are present to facilitate change and trend analyses. NAEP has unique psychometric and statistical sampling properties (fully described in the machine-readable documentation,) which limits casual use of these large census-like collections designed to be used as barometers of education."</p>		

Disposition:

- 1A. Each version of the data tape and microfilm documentation: Transfer to the Center for Machine-Readable Records upon creation of a public use file. Destroy upon creation of a subsequent version.
- 1B. Final version of each data tape and microfilm documentation: Transfer from the Center for Machine-Readable Records to the National Archives for permanent retention when it is determined that no further version will be created.
- 1C. Microfiche respondent exercises: Transfer with related data file to the Center for Machine-Readable Records. When the final version of the data file has been created, transfer to the National Archives for permanent retention.
- 1D. Record copy of respondent exercises: Dispose of ~~by donation to grantee or contractor upon creation of archival quality microfilm.~~ upon verification of the quality of the microfiche copy.
