1.	<p>Records relating to the calibration and inspection of instruments, used in the detection and recording of radiation, against sources of known radioactive emission or dose rate.</p> <p>a. History file of procedures indicating criteria for selection and methods used, and schedules giving frequency of calibration and maintenance of radiation detection instruments and equipment.</p> <p style="text-align: center;"><i>Destroy when 75 years old</i></p> <p>b. Reports of instrument and equipment distribution, decontamination, performance, inventories, statistical data, physical status, operating condition, and any related data.</p> <p style="text-align: center;">Until no longer needed for reference or 1 year, whichever is earlier.</p>		
2.	<p>Medical or health research project case files reflecting the history of the research project from initiation to completion, including research, development, design, and test results. Included are records such as: project proposal; review memoranda and comments; project authorizations and directives; copies of unpublished manuscripts, journal articles, and conference papers; progress reports; correspondence influencing the direction of the project; and lists of publications and films resulting from the</p>

Also included are the records of any subsequent studies resulting from the research.</p> <p style="text-align: center;">Permanent.</p> <p><i>offer to National Archives 25 years after project completion</i></p> <p>3. Environmental contamination measurement records indicating presence and amount of radioactive materials in samples of air, water, earth, biological (animal and vegetation) and special materials from on-site and off-site locations</p> <p>a. Procedures which detail the methods used and frequency of analysis on environmental samples. Includes records or correspondence which give the philosophy and scope of sampling, provide interpretations of results, and detail the plans for sampling and analysis of environmental samples.</p> <p><i>(1) General procedures Permanent, offer to National Archives in 25 years. (2) Specific procedures</i></p> <p>Until analytical results are verified, accepted, and summarized, or 5 years whichever is earlier.</p> <p>b. Analytical summaries of results of analyses including results on standards or other calibrations used to establish the validity of analytical results.</p> <p>Until analytical results are verified, accepted, and summarized, or 5 years whichever is earlier.</p> <p>c. Logbooks containing pertinent sampling or analytical calculations, observations, interpretations of results, etc.</p> <p>Until analytical results are verified, accepted, and summarized, or 5 years whichever is earlier.</p> <p>d. Worksheets, recorder charts, laboratory analysis requests, radioautograph film, dosimeter data and other interim records or devices used in determining the basic data from which results in Item b., above, are obtained.</p> <p>Until analytical results are verified, accepted, and</p>

	<p>d. Logbooks (chronological history) which provide a concise summary of shift and daily activities including unusual incidents, radiation and contamination problems, release of radionuclides to work areas or public zones, interpretation of unusual chart recordings and similar items.</p> <p style="text-align: center;"><i>Destroy when 75 years. old.</i></p> <p>e. Routine radiation and contamination surveys and air sample logs, including resulting laboratory analyses and equipment calibrations, indicating no unusual health or safety problems.</p> <p style="text-align: center;"><i>Destroy when 75 years. old.</i></p> <p>f. Recorder chart records of radiation and contamination detected by air activity monitors (gaseous and particulate) and ionization chambers.</p> <p style="text-align: center;">Until purpose is served or 3 months, whichever is earlier.</p> <p>g. Reports and engineering studies on unusual radiation or contamination problems.</p> <p style="text-align: center;"><i>Destroy when 100 years. old.</i></p> <p>h. Records covering radioactive shipments by commercial carrier or over privately-owned property.</p> <p style="text-align: center;">5 years.</p> <p>5. Records prepared in the normal course of business establishing exposure of personnel to hazardous concentrations of toxic chemicals and other materials, but excluding radionuclides.</p> <p>a. Standards, operating guides and procedures including revisions and background records which establish operating practices.</p> <p style="text-align: center;"><i>75 years. Permanent, offer to the National Archives in 75 years.</i></p> <p>b. Operating plans for specific jobs within the scope of the above established operating practices.</p>
