Background Information            **The mission of the Energy Department is to ensure America's security and prosperity by addressing its energy, environmental and nuclear challenges through transformative science and technology solutions. The LPO operates within the Department of Energy (DOE), to accelerate the domestic commercial deployment of innovative and advanced clean energy technologies at a scale sufficient to contribute meaningfully to the achievement of our national clean energy objectives—including job creation; reducing dependency on foreign oil; improving our environmental legacy; and enhancing American competitiveness in the global economy of the 21st century. LPO executes this mission by guaranteeing loans to eligible clean energy projects (i.e., agreeing to repay the borrower's debt obligation in the event of a default), and by providing direct loans to eligible manufacturers of advanced technology vehicles and components. Operationally, the LPO's business actions and processes are subject to and meets the statutory requirements set forth by subchapter IV of chapter 31 of title 40, USC (the Davis Bacon Act), in addition to those set forth in 29 CFR Part 5, and 48 CFR Section 1605 of the American Recovery and Reinvestment Act of 2009.**
