NOTIFICATION TO AGENCY

DATE ARCHIVIST OF THE UNITED STATES

Amendment to Environmental Records Schedule (N1-434-98-28) to include three additional items.

(See attached)
Addition to Item 1.b. (4) – Safety Analysis Reports

(4a) Safety Analysis Reports

Safety Analysis Reports (SARs) document the adequacy of safety analysis for a nuclear facility to ensure that the facility can be constructed, operated, maintained, shut down, and decommissioned safely and in compliance with applicable laws and regulations.

Records may include document reviews of current and potential risks involved before work proceeds, specific safety analysis that pertains to specific activities related to the SAR, and Technical Safety Requirements (TSRs) which is specific standards or regulations that pertain to the activity, site characteristics, facility descriptions, safety designs, facility hazard analysis and classification, health and safety criteria, analysis of operation, institutional safety provisions, emergency preparedness, and other related subjects.

Records should include the related DOE Safety Evaluation Report.

Review annually. Cutoff when superseded, obsolete, or cancelled. Destroy 25 years after cutoff.
(4b) Other Safety Analyses

Document a process to provide systematic identification of hazards within a given DOE operation; to describe and analyze the adequacy of measures taken to eliminate, control, or mitigate identified hazards; and to analyze and evaluate potential accidents and their associated risks.

May have documentation similar to SAR’s. Records should include the related DOE Safety Evaluation Report.

Addition to Item 1.d (9) – Community Radiation Monitoring Program Reports

(9) Community Environmental Surveillance Program Reports

Summary reports documenting the cooperative effort of DOE, the DOE contractor site, and the surrounding communities in actively participating in an environmental surveillance program.

Cutoff upon issuance of report. Destroy 5 years after cutoff.

Addition to Item 1.k (1) – Environmental Program Management Files

k. Environmental Record Case Files

NOTE: Use this retention ONLY for records maintained as a collection.

(1) Environmental Program Support Files

Document the management, administration, support, function, operation, and program activities for an environmental program.

Cutoff annually. Destroy 25 years after cutoff.
These records include, but are not limited to, mission descriptions or documents describing the following: the type of work performed; funding/budget documentation; program plans; approvals and implementation and coordinating program activities; action plans; program development records; compliance to regulatory requirements; a history of past management practices; meeting minutes; audits; project reviews or event documentation; organization structure; property/equipment lists; deliverables; reports and correspondence related to milestones, work identification or progress; and other related documentation.

August 18, 2000
Electronic Mail and Word Processing System Copies.

Electronic copies of records that are created on electronic mail and word processing systems and used solely to generate a recordkeeping copy of the records covered by the other items in this schedule. Also includes electronic copies of records created on electronic mail and word processing systems that are maintained for updating, revision, or dissemination.

a. Copies that have no further administrative value after the recordkeeping copy is made. Includes copies maintained by individuals in personal files, personal electronic mail directories, or other personal directories on hard disk or network drives, and copies on shared network drives that are used only to produce the recordkeeping copy.

Destroy/delete within 180 days after the recordkeeping copy has been produced.

b. Copies used for dissemination, revision, or updating that are maintained in addition to the recordkeeping copy.

Destroy/delete when dissemination, revision, or updating is completed.
