	<p>Destruction of the following permanent records after microfilming is requested:</p> <ol style="list-style-type: none"> Core Manufacturing Research and Development (R&D) Records, consisting of program documents, schedules, and correspondence as identified in U.S. Department of Energy (DOE) Order 1324.2, Contractor Records Schedule (CRS) 19.1. Core Manufacturing R&D Project Case Files reflecting the history of a project from initiation to completion, including research, development, design, and test results as identified in DOE Order 1324.2, CRS 19.3.a. <p>Bettis has certified that the records described on this form will be microfilmed in accordance with the standards set forth in 36 CFR 1230.14. Bettis has also certified that storage conditions and use for the silver halide permanent records copies will adhere to the standards of 36 CFR 1230.20 and 36 CFR 1230.24. Bettis will use a Federal Records Center for long term storage of the silver halide permanent microfilm copy. The nonpermanent copy of the microfilm will be kept in a Bettis records vault. The first inspection of microfilm will take place in 1987 (two years after the microfilm is placed in storage) in accordance with 36 CFR 1230.22. Approximately 60 cubic feet of these records are on hand; 30 additional cubic feet are projected to be created annually. The two series are indexed as part of the microform process and the indexes will accompany the records.</p>		<i>2 items</i>

DISPOSITION:

MICROFORM COPIES OF ITEMS 1 AND 2: Transfer one silver halide and one diazo copy to the Federal Records Center at Bayonne, New Jersey, upon completion of the project. Offer to the appropriate National Archives Field Branch 30 years after the completion of the project if all information has been declassified. If all information has not been declassified, consult with NARA prior to offering the records to the Field Branch.

PAPER RECORDS: Destroy after microform copy has been reviewed and found to meet the standards set forth in 36 CFR 1230.12 and 1230.14.
