

NOTICE - SOME ITEMS SUPERSEDED OR OBSOLETE

Schedule Number: N1-434-96-009

Some items in this schedule are either obsolete or have been superseded by new NARA approved records schedules. This information is accurate as of: 10/31/2022

ACTIVE ITEMS

These items, unless subsequently superseded, may be used by the agency to disposition records. It is the responsibility of the user to verify the items are still active.

All other items remain active.

SUPERSEDED AND OBSOLETE ITEMS

The remaining items on this schedule may no longer be used to disposition records. They are superseded, obsolete, filing instructions, non-records, or were lined off and not approved at the time of scheduling. References to more recent schedules are provided below as a courtesy. Some items listed here may have been previously annotated on the schedule itself.

Item 1B12 was superseded by N1-434-07-001 item 4c12.

Item 3C was superseded by N1-434-07-001 item 4e3.

REQUEST FOR RECORDS DISPOSITION AUTHORITY (See Instructions on reverse)		LEAVE BLANK (NARA use only)	
TO NATIONAL ARCHIVES and RECORDS ADMINISTRATION (NIR) WASHINGTON, DC 20408		JOB NUMBER	N1-434-96-9
1. FROM (Agency or establishment) Department of Energy Washington, DC 20585		DATE RECEIVED	7-16-96
2. MAJOR SUBDIVISION Off. of Info. Mgt(HR-424) Germantown MD 20874-1290		NOTIFICATION TO AGENCY	
3. MINOR SUBDIVISION		In accordance with the provisions of 44 U.S.C. 3303a the disposition request, including amendments, is approved except for items that may be marked "disposition not approved" or "withdrawn" in column 10.	
4. NAME OF PERSON WITH WHOM TO CONFER Mary Ann Wallace	5. TELEPHONE 301 903 4353	DATE 8-31-98	ARCHIVIST OF THE UNITED STATES John W. Carl

6. AGENCY CERTIFICATION
I hereby certify that I am authorized to act for this agency in matters pertaining to the disposition of its records and that the records proposed for disposal on the attached 21 page(s) are not now needed for the business of this agency or will not be needed after the retention periods specified; and that written concurrence from the General Accounting Office, under the provisions of Title 8 of the GAO Manual for Guidance of Federal Agencies,

is not required; is attached; or has been requested.

DATE 7/2/96	SIGNATURE OF AGENCY REPRESENTATIVE <i>Mary Ann Wallace</i>	TITLE Team Leader, Records Mgt.
----------------	---	---------------------------------------

7. ITEM NO.	8. DESCRIPTION OF ITEM AND PROPOSED DISPOSITION	9. GRS OR SUPERSEDED JOB CITATION	10. ACTION TAKEN (NARA USE ONLY)

INTRODUCTION TO RESEARCH AND DEVELOPMENT RECORDS

Scope

This schedule encompasses research and development (R&D) records generated within the Department of Energy (DOE) complex which consists of all DOE offices and its contractor organizations, such as national laboratories. It applies to all applicable records regardless of format. Excluded from this schedule are R&D records pertaining to:

- a) nuclear weapons, which are covered by DOE Schedule 3, Nuclear Weapons Schedule, and
- b) Work for Others, Cooperative Research and Development Agreements (CRADA), and cost sharing agreements which are covered by DOE Schedule NI-434-95-5.

R&D records consist of information generated by scientific and technical activities and collaborations that result in new or modified concepts, techniques, equipment, and materials. Scientific and technical activities may include:

- a) administering technical projects
- b) establishing research priorities
- c) developing theories and models
- d) planning and designing experiments
- e) conducting experiments
- f) compiling, reviewing, and disseminating technical reports, presentations and published articles.

R&D records accumulate at various organizational levels:

- a) divisions establish program direction
- b) research groups generate projects, and
- c) facilities conduct testing and experimentation.

Through an evaluation of the record series, organizations can accurately assess the lasting scientific and research value of these records. The record series may document:

- a) program direction, review, appraisal or analysis
- b) the research activity's overall organization, functions, procedures and operations,
and
- c) the research activity's results and conclusions which may have value for future researchers.

Review Philosophy and Guidelines

This schedule provides tools and guidelines to successfully complete the review of R&D records and to establish levels for disposition. The records in this schedule shall be reviewed at project closure or file cutoff to determine the appropriate disposition.

Each site should establish a review team composed of members who understand the records under evaluation and/or the records management function of the organization. The team might include the agency's Records Manager, Archivist, or Historian, the principal investigator(s), project researchers, current records holders, and subject matter experts. An R&D Checklist should be the starting point for the team's evaluation (see Figure 1.0 Research & Development Evaluation Checklist). Ideally, the evaluation process would begin with an assessment of records written by the principal investigator(s) during or shortly after the close of a project. This provides a basis for the review team to use in their subsequent evaluation of the project.

All R&D records must be evaluated and assigned into one of the following three levels, unless otherwise indicated in the schedule. Records retired under this schedule will not be accepted by a Federal Records Center without an appropriate level designation.

Level I : Projects which received national or international awards of distinction; active participation of nationally or internationally prominent investigators; research which resulted in a significant improvement in public health, safety, or other vital national interests; scientific endeavors which were the subject of widespread national or international media attention and/or extensive congressional, DOE or other government agency investigation; show the development of new and nationally or internationally significant techniques which are critical for future scientific endeavors; or made a significant impact on the development of national or international scientific, political, economic, or social priorities.

Level I Disposition Instructions : Permanent. Cutoff after project/program completion, cancellation, or termination, or in 5 year blocks. Retire to Federal Records Center (FRC) 2 years after termination of project/program. Transfer to National Archives and Records Administration (NARA) when 30 years old. *After termination of Project/Program*

Level II: Research that leads to the development of a "first of its kind" process or product; improved an existing process, product, or application, or has implications for future research.

Level II Disposition Instructions: Cutoff files after project/program completion, cancellation or termination, or in 5 year blocks. Retire to FRC 2 years after termination of project/program. Destroy ~~when 25 years old.~~ *after termination of Project/Program*

Level III: Research projects/programs that do not fall into Level I or II.

Level III Disposition Instructions: Cutoff files after project/program completion, cancellation or termination, or in 5 year blocks. Retire to FRC 2 years after termination of project/program. Destroy ~~when 10 years old.~~ *after termination of Project/Program*

FIGURE 1.0**Research & Development Evaluation Checklist**

The following list is intended for guidance purposes only. Individual sites are encouraged to develop an evaluation form for R&D records consisting of these elements or appropriate variations.

1. Full name of office or unit creating the records.
2. Official name of the project, project number or sub-project identifier, and summarized statement of work.
3. Summary of the project and its significance, including significant milestones (start, finish . . .).
4. Name(s) of principal researcher(s).
5. Names of team members.
6. Location of principal researcher(s) and team members.
7. Funding and/or oversight DOE program.
8. Research methodology, procedures, and techniques unique to project.
9. Has a patent been filed?
10. Are the records the subject of pending litigation?
(Note: No document should be destroyed if it is related to a complaint or a claim which has been filed or is likely to be filed even if the retention has been reached or exceeded. Approved dispositions may be applied after resolution of the litigation and any subsequent appeals.)
11. Types of records (e.g., reports, correspondence, drawings . . .). Identify any access restrictions.

12. Medium of records (e.g., paper, diskette, microfilm . . .).
13. Location of records.
14. Evaluation of records for future research and historical use.
15. Suggested retention.

RESEARCH & DEVELOPMENT RECORDS

This schedule covers R&D records and reports for the U.S. Department of Energy's (DOE) complex. Records covered by this schedule are grouped into the following categories:

1. Research & Development Project Records
2. Research & Development Program Management Records
3. Medical Research Records

1. RESEARCH & DEVELOPMENT PROJECT RECORDS

R&D project records may be maintained as: a) a project case file or b) individual record series. The project case file approach provides a complete record of an R&D project from start to finish, allowing the reconstruction of relevant procedures and analyses. The second method for organizing and maintaining R&D projects records is by individual record series.

The criteria for scheduling records into one of the following three levels, unless otherwise indicated in the schedule, is as follows:

Level I : Projects which received national or international awards of distinction; active participation of nationally or internationally prominent investigators; research which resulted in a significant improvement in public health, safety, or other vital national interests; scientific endeavors which were the subject of widespread national or international-media attention and/or extensive Congressional, DOE or other government agency investigation; show the development of new and nationally or internationally significant techniques which are critical for future scientific endeavors; or made a significant impact on the development of national or international scientific, political, economic, or social priorities.

Level I Disposition Instructions : Permanent. Cutoff after project/program completion, cancellation, or termination, or in 5 year blocks. Retire to FRC 2 years after termination of project/ program. Transfer to NARA ~~when 30 years old~~ *after termination of Project/Program*

Level II: Research that leads to the development of a "first of its kind" process or product; improved an existing process, product, or application, or has implications for future research.

Level II Disposition Instructions: Cutoff files after project/program completion, cancellation or termination, or in 5 year blocks. Retire to FRC 2 years after termination of project/program. Destroy ~~when 25 years old~~ *after termination of Project/Program*

Level III: Research projects/programs that do not fall into Level I or II.

Level III Disposition Instructions: Cutoff files after project/program completion, cancellation or termination, or in 5 year blocks. Retire to FRC 2 years after termination of project/program. Destroy ~~when 10 years old~~ *after termination of Project/Program*

DESCRIPTION**RECOMMENDED DISPOSITION**

A. R&D Project Case Files. A project case file includes all records related to the project and may include but are not limited to the records itemized in **B. R&D Record Series.**

- | | |
|------------------------------------|---|
| 1. Level I (see criteria above). | Permanent. Cutoff after project/program completion, cancellation, or termination, or in 5 year blocks. Retire to FRC 2 years after termination of project/ program. Transfer to NARA when 30 years old <i>after termination of Project/Program</i> |
| 2. Level II (see criteria above). | Cutoff after project/program completion, cancellation or termination, or in 5 year blocks. Retire to FRC 2 years after termination of project/program. Destroy when 25 years old <i>after termination of Project/Program</i> |
| 3. Level III (see criteria above). | Cutoff after project/program completion, cancellation or termination, or in 5 year blocks. Retire to FRC 2 years after termination of project/program. Destroy when 10 years old <i>after termination of project/Program.</i> |

DESCRIPTION**RECOMMENDED DISPOSITION****B. R&D Record Series.**

1. Administrative records that include correspondence relating to project justification, staffing, initiation or execution; project management plans, records management plans; and periodic status reports.

(a) Level I (see criteria above).

Permanent. Cutoff after project/program completion, cancellation, or termination, or in 5 year blocks. Retire to FRC 2 years after termination of project/ program. Transfer to NARA ~~when 30 years old.~~ *after termination of Project/Program*

(b) Level II (see criteria above)

Cutoff after project/program completion, cancellation or termination, or in 5 year blocks. Retire to FRC 2 years after termination of project/program. Destroy ~~when 25 years old.~~ *after termination of Project/Program*

(c) Level III (see criteria above)

Cutoff after project/program completion, cancellation or termination, or in 5 year blocks. Retire to FRC 2 years after termination of project/program. Destroy ~~when 10 years old.~~ *after termination of Project/Program.*

DESCRIPTION

2. Financial documents which include: budgets, cost runs, work breakdown structure and travel expenditures.

3. Contractual and procurement documents which include: funded proposals, sponsor contracts, sub-contracts, contract specifications, statements of work, letters of instruction, related service agreements and accompanying instructions and technical procedures and study protocols; procurement specifications and purchase orders and any subsequent revisions.

4. Quality assurance documents include, but are not limited to: quality assurance plans, and related reports of QA audits, project assessments, nonconformance and corrective action reports, deficiency reports, and certificates of conformance.

(a) Level I (see criteria above).

RECOMMENDED DISPOSITION

Cutoff files annually
 Destroy ~~when 10 years old.~~ *after CUT OFF*

CUT OFF FILES ANNUALLY
 Destroy ~~when 10 years old.~~ *after CUT OFF*

Permanent. Cutoff after project/program completion, cancellation, or termination, or in 5 year blocks. Retire to Federal Records Center (FRC) 2 years after termination of project/ program. Transfer to National Archives and Records Administration (NARA) ~~when 30 years old.~~ *after TERMINATION OF Project/ Program*

(b) Level II (see criteria above).

Cutoff after project/program completion, cancellation or termination, or in 5 year blocks. Retire to FRC 2 years after termination of project/program. Destroy ~~when 25 years old.~~ *after termination of program/Project*

(c) Level III (see criteria above).

Cutoff after project/program completion, cancellation or termination, or in 5 year blocks. Retire to FRC 2 years after termination of project/program. Destroy ~~when 10 years old.~~ *after termination of Project/Program*

5. Reports of inventions, disclosures/patents and copyrights.

Refer to DOE Records Schedule 7.

6. Design documentation including experimental set up, schematics, flow charts and logs, test controls and instructions, test records and certifications, measuring and test equipment control listings, and calibration records.

(a) Level I (see criteria above)

Permanent. Cutoff after project/program completion, cancellation, or termination, or in 5 year blocks. Retire to Federal Records Center (FRC) 2 years after termination of project/ program. Transfer to National Archives and Records Administration (NARA) ~~when 30 years old.~~ *after termination of project/Program*

- (b) Level II (see criteria above) Cutoff after project/program completion, cancellation or termination, or in 5 year blocks. Retire to FRC 2 years after termination of project/program. Destroy ~~when 25 years old.~~ *after termination of Project/Program.*
- (c) Level III (see criteria above) Cutoff after project/program completion, cancellation or termination, or in 5 year blocks. Retire to FRC 2 years after termination of project/program. Destroy ~~when 10 years old.~~ *after termination of Project/Program*
7. Basic data sheets and data logs. Destroy when 5 years old unless specifically designated as deliverables in contractual or procurement documents. If designated as such, apply Level III criteria and disposition instructions.
8. Computer code documentation and software/hardware requirements, including benchmark test/data results, file specifications, record layouts, relating to a master file or data base ~~authorized for disposal.~~ Destroy when ~~10 years old.~~ *superseded or obsolete, or upon authorized deletion of the related Master file or data base, or upon the destruction of the output of the system if the output is not needed to protect legal rights.*
9. Technical documents which include: technical papers, significant technical correspondence, engineering plans and drawings, final reports, photographs and negatives related to the project; ~~references or indexes to related electronic records and data,~~ test schedules, specifications, final approved standards, final research data, statistical analyses, tables, charts, graphs, computer printouts or analyses of scientific or engineering data, and other accumulated records documenting the progress and completion of R&D projects.

(a) Level I (see criteria above).

Permanent. Cutoff after project/program completion, cancellation, or termination, or in 5 year blocks. Retire to FRC 2 years after termination of project/ program.

Transfer to NARA ~~when 30 years old.~~ *after Project/Program Termination.*

(b) Level II (see criteria above).

Cutoff after project/program completion, cancellation or termination, or in 5 year blocks. Retire to FRC 2 years after termination of project/program. Destroy

~~when 25 years old.~~ *after Project/Program Termination.*

(c) Level III (see criteria above).

Cutoff after project/program completion, cancellation or termination, or in 5 year blocks. Retire to FRC 2 years after termination of project/program. Destroy

~~when 10 years old.~~ *after Project/Program Termination*

10. Supporting technical information which includes: preliminary reports, notes and working papers, computer printouts, draft copies of papers used by technical writers and any other preliminary or draft copies.

Destroy when 5 years old unless specifically designated as deliverables in contractual or procurement documents. If designated, apply Level III criteria and disposition instructions.

11. Preliminary sketches, drawings, specifications, and photographs.

Destroy when 5 years old unless specifically designated as deliverables in contractual or procurement documents. If designated, apply Level III criteria and disposition instructions.

12. Raw data in various media (punch cards, computer printouts, magnetic tapes, videotapes, photographs, or comparable media) used to collect and assemble data of a preliminary or intermediate character generated from such processes as experiments or observations used for reference in arriving at determinations in the conduct of research projects or determined to have probable value for secondary evaluations or future experiments.

Destroy when 5 years old (or earlier if authorized by appropriate site review) unless the records are specifically designated as deliverables in contractual or procurement documents. If designated, apply Level III criteria and disposition instructions.

Electronic/Computer files are to be destroyed/deleted after the necessary data has been incorporated/summarized into another file. GESSRO/gd.

(a) electronic/Computer files

13. Evaluated or summarized data resulting from study of raw data including memoranda, graphs, tabulations, reports, log books, and related papers.

(a) Level I (see criteria above).

Permanent. Cutoff after project/program completion, cancellation, or termination, or in 5 year blocks. Retire to FRC 2 years after termination of project/ program. Transfer to NARA ~~when 30 years old~~ after termination of Project/Program

(b) Level II (see criteria above).

Cutoff after project/program completion, cancellation or termination, or in 5 year blocks. Retire to FRC 2 years after termination of project/program. Destroy ~~when 25 years old~~ after termination of project/ program.

(c) Level III (see criteria above).

Cutoff after project/program completion, cancellation or termination, or in 5 year blocks. Retire to FRC 2 years after termination of project/program. Destroy ~~when 10 years old~~ after termination of project/ program

NOTE: If an electronic database or master file associated with a Level I project is deemed vital to understanding the project, then DOE will submit a separate Request for Records Disposition Authority (SF 115) to NARA.

14. Controlled notebooks issued to researchers specifically to document research results. These notebooks contain technical and scientific data accumulated from the conduct of research and development and are often not duplicated in technical reports or project case files. These notebooks frequently contain data essential in establishing patent or invention rights.

(a) Level I (see criteria above).

Permanent. Cutoff after project/program completion, cancellation, or termination, or in 5 year blocks. Retire to FRC 2 years after termination of project/ program.

Transfer to NARA ~~when 30 years old.~~ *after termination of project/program*

(b) Level II (see criteria above).

Cutoff after project/program completion, cancellation or termination, or in 5 year blocks. Retire to FRC 2 years after termination of project/program. Destroy

~~when 25 years old.~~ *after termination of project/program*

(c) Level III (see criteria above).

Cutoff after project/program completion, cancellation or termination, or in 5 year blocks. Retire to FRC 2 years after termination of project/program. Destroy

~~when 10 years old.~~ *after termination of project/program.*

15. Technical Progress Reports submitted by laboratories or other project offices to show the initiation and degree of completion of projects, and consolidated reports prepared therefrom.

- (a) Level I (see criteria above). Permanent. Cutoff after project/program completion, cancellation, or termination, or in 5 year blocks. Retire to FRC 2 years after termination of project/ program. Transfer to NARA ~~when 30 years old~~ *after termination of project/program*
- (b) Level II (see criteria above). Cutoff after project/program completion, cancellation or termination, or in 5 year blocks. Retire to FRC 2 years after termination of project/program. Destroy ~~when 25 years old~~ *after termination of project/program.*
- (c) Level III (see criteria above). Cutoff after project/program completion, cancellation or termination, or in 5 year blocks. Retire to FRC 2 years after termination of project/program. Destroy ~~when 10 years old~~ *after termination of project/program.*

2. RESEARCH & DEVELOPMENT PROGRAM MANAGEMENT RECORDS

R&D Program Management records document the basis for research and development program management decisions, direction, policies and responsibilities, and the planning and status of research projects within a program. A program is an organized group of projects that may be related by a single theme. Projects making up a program may involve different technology disciplines and may be conducted by several organizations. Program records identified in this section may also include technical committee and board records.

DESCRIPTION

RECOMMENDED DISPOSITION

A. R&D Program Planning Records.

Records of boards and committees studying assigned technical research and development problems, including requirements for or the authorization of projects, the scheduling and phasing of projects or programs, and the control and coordination of various R&D project phases or programs. Records consist of agendas, directives, minutes of meetings, papers relating to the establishment, revision, or termination of projects, and other papers reflecting the boards or committees' actions, recommendations and accomplishments.

1. Records maintained by DOE Headquarters Program Manager.

Permanent. Cutoff *files every 5 years* after ~~completion or termination of program, or in 5 year blocks.~~
and Retire to FRC ~~2 years after cutoff.~~ Transfer to NARA when ~~30 years old.~~ *after Cutoff.*

2. Records maintained by each Laboratory Director or equivalent.

Permanent. Cutoff *files every 5 years* after ~~completion or termination of program, or in 5 year blocks.~~
and Retire to FRC ~~2 years after cutoff.~~ Transfer to NARA when ~~30 years old.~~ *after Cutoff.*

3. Records maintained by other DOE sites and contractor organizations.

Destroy when ~~25 years old.~~
Cutoff files every 5 years and retire to FRC. Destroy 20 years after cutoff.

3. MEDICAL RESEARCH RECORDS

Records of ongoing clinical research programs and clinically-based experimental treatment programs. Includes research activities that involve human subjects conducted in accordance with 10 CFR Part 745 - Protection of Human Subjects.

DESCRIPTION

A. Patient Case Files. Records of patients treated by physicians as a part of ongoing clinical-research programs and clinically-based experimental treatment programs. Each medical case file includes the complete medical history and record of treatment for individual patients.

The medical documentation component of the individual case files may include, but is not limited to, the following types of records: referral correspondence, initial clinical data, correspondence with collaborating medical institutions, treatment plans and data, patient treatment notes and procedure notes documenting the course of the diagnostic and treatment procedures.

RECOMMENDED DISPOSITION

*CUT OFF Files at Termination
 Destroy when 75 years old. of Medical Research
 Program. Retire to
 FRC when
 appropriate. Desir
 75 years after
 CUT OFF.*

DESCRIPTION**RECOMMENDED DISPOSITION**

Administrative documentation in the case file may include, but is not limited to, the following types of records: patient data sheets and insurance records, release copies for any medical record information requests, consent forms and permission to treat, and billing documentation.

The imaging records in the file may include, but are not limited to, the following types of records: diagnostic (pre-treatment) and follow-up (post-treatment) images and may include x-rays, magnetic resonance imaging, computed tomography, and position emission tomography studies.

DESCRIPTION

B. Medical Research Case Files. These records document the history of research projects on human subjects from initiation to completion, and include records relating to the prospective evaluation of the safety and efficiency of proposed diagnostic, therapeutic, or preventative treatments as well as research, development, design and test results. The records may include but are not limited to the following: project proposal, review memoranda and comments, project authorizations and directives, approved protocols, documentation of assurance, unpublished manuscripts, journal articles and conference papers, progress reports, correspondence, lists of publications resulting from the project, test treatment data, daily calibration data, equipment operation logs, operation and safety procedures, and Institutional Review Board records.

C. Medical Equipment Data Records. Records include, but are not limited to, equipment and instrument calibration; experimental set-up of equipment; daily calibration data; equipment operation logs; equipment service, maintenance and repair records; operations and safety procedures, that are not appropriate for inclusion in the medical project case file.

RECOMMENDED DISPOSITION

Permanent. Cutoff after completion or termination of program, or in 5 year blocks. Retire to FRC 2 years after cutoff. Transfer to NARA when 30 ^{years} ~~years old~~. *after termination of Project/Program*

CUT OFF Files Annually
Destroy when 15 ^{years} ~~years old~~ *after CUT OFF.*
