ADMINISTRATIVE RECORDS SCHEDULE 6:
ACCOUNTABLE OFFICERS' ACCOUNTS RECORDS

This schedule covers accountable officers' returns and related records, including records under the cognizance of the General Accounting Office (GAO).

Accountable officers' accounts include record copies of all records concerned with the accounting for, availability, and status of public funds. There are several types of "accountable officers," such as: (a) the collecting officer, who receives monies owed to the Federal Government and ensures that it is credited to the proper account; (b) the disbursing officer who is responsible for providing documentation to GAO since he/she accomplishes the actual payment of public monies to proper Federal creditors; and (c) the certifying officer, whose signature on a summary attests to the authenticity of vouchers listed on the schedule.

Disbursements are made by the Chief Disbursing Officer of the Treasury, who heads the Division of Disbursement of the Bureau of Government Financial Operations within the Treasury Department. Disbursements are made on the basis of certified schedules, with the detailed vouchers held in Departmental space for site audit. This procedure was extended and confirmed by GAO General Regulations No. 115 issued January 29, 1952, which promulgated a standard form voucher and schedule of payments (Standard Forms 1166 and 1167) for use by the Department.

On-site audit by GAO covers vouchers, contracts, schedules, statements of transactions and accountability and other related supporting documents. If the records are no longer required for administrative purposes, all audited and any unaudited records more than one full fiscal year old may be transferred to Federal Records Centers. The transfer of unaudited accountable officers' accounts less than one year old requires obtaining permission from the Director, Records Management, GAO. The creation of memorandum copies as described in item 1b of this schedule is unnecessary because the records are retained for site audit in the Department.

Records relating to the availability, collection, and custody of funds include (1) the appropriation warrants, (2) other documents which deposit funds into the Treasury, and (3) documents which provide accountable officers with status reports on funds in their custody, such as the proofs of depository account and statements of funds to their credit. Departmental copies of these deposit and status documents are related to the accounts of these officers and are included in this schedule. All records described in this schedule are authorized for disposal in both hard copy and electronic formats. Retirement of noncurrent records to compact storage is authorized (per John Davenport's 3/3/1999 e-mail).

Accountable Officers' Files. (GRS 6, item 1)

Original or ribbon copy of accountable officers' accounts maintained in the Department for site audit by GAO auditors, consisting of statements of transactions, statements of accountability, collection schedules, collection vouchers, disbursement schedules, disbursement vouchers, and all other schedules and vouchers or documents used as schedules or vouchers, exclusive of commercial passenger transportation and freight records and payroll records, EXCLUDING accounts and supporting documents pertaining to American Indians. Under the Department's integrated accounting system, certain required documents supporting vouchers and/or schedules are included in the site audit records. These records document only the basic financial transaction, money received, and money paid out or deposited in the course of operating the Department. All copies except the certified payment or collection copy, usually the original or ribbon copy, and all additional or supporting documentation not involved in an integrated system are covered by succeeding items in this schedule.
