HEALTH SERVICES ADMINISTRATION
PUBLIC HEALTH SERVICE

The records described in this Records Control Schedule (RCS) are created by the Health Services Administration (HSA) which provides a national focus for programs and health services for all people of the United States with emphasis on achieving the integration of service delivery and public and private financing systems to assure their responsiveness to the needs of individuals and families in all levels of society.

To these ends, the HSA administers health service delivery programs supported by project grants, contracts or other arrangements; provides leadership to and supports efforts designed to integrate health service delivery programs with public and private health financing programs; administers formula grant-supported health services programs; assures quality and containment costs of service provided through the public financing programs; provides or arranges for personal health services, including both hospital and out-patient care, to designated beneficiaries; and provides advice and support to the Assistant Secretary for Health in the formulation of health policies. The HSA is comprised of the Office of the Administrator (OA), Bureau of Community Health Services (BCHS), Indian Health Service (IHS), the Bureau of Medical Services (BMS), and Bureau of Health Personnel Development and Service (BHPDS).

Official government records belong to the office where they are created, not to the employee. Federal legislation has set forth definitions and procedures that apply to all records created or maintained in government offices. Records include all books, papers, maps, photographs, machine readable materials, or other documentary materials, regardless of physical form or characteristics, made or received by any agency of the United States Government under Federal Law or in connection with the transaction of public business. Library and museum materials made or acquired and preserved solely for reference or exhibition purposes, extra copies of documents preserved only for conveniences or reference, and stocks of publications and of processed documents are not included.

Correspondence marked "personal, confidential or private" is not a personal paper when it relates to government business. Unlawful removal or destruction of government records is punishable by fine or imprisonment or both. All employees have a legal responsibility to safeguard government records, and to notify the HSA Records Management Officer of any actual or threatened removal or loss. No government records should be destroyed except in accordance with this Records Control Schedule which has been approved by the U.S. Archivist.

NOTE: All previous authorizations for the disposition of record and nonrecord materials covered by this schedule are hereby rescinded.

This schedule has separate sections for each classification of records, as follows:

Part 1A, Items 1-19 - Permanent and Nonpermanent Program and Administrative Records describes record materials accumulated at Headquarters and field offices to comply with HSA policies. This schedule provides the time-table for which these records are to be transferred to the Federal Records Center (FRC) for a specified period of time and then offered to the National Archives for permanent retention. The records are grouped according to function. In all cases, the official permanent program and administrative records will be maintained in the OA staff office responsible for that function.

Part 1B, Item 20 - Bureau of Community Health Services (BCHS) Permanent and nonpermanent program records pertaining to contracts, loans, and grants which provides for the distribution of Federal money for various types of health care programs, which are designed to meet the total health needs of the community it serves.

Part 1C, Item 21 - Indian Health Service Permanent and nonpermanent program records. Files for hospitals, health centers, etc. are covered under PHS Hospitals and Clinics.

Part 1D, Items 22-24 - Bureau of Medical Services Permanent and nonpermanent program records. Files including Public Health Service Hospitals and Outpatient Clinics.

Part 1E, Items 25 - Bureau of Health Personnel Development and Service Permanent and nonpermanent records pertaining to student loans and scholarship programs including National Health Service Corp.

Part II, Item 26 - Nonrecord Materials preserved solely for purposes of reference.

This RCS should be used in conjunction with the General Records Schedule (GRS) published by GSA (Appendix A of the HHS Records Management Manual). Records for which disposition instructions are available in the GRS will be referenced, as necessary. (For the most part, items listed in the GRS are not included in this RCS.)

Any file system not listed in this schedule is not authorized for disposal.
