NOTICE - SOME ITEMS SUPERSEDED OR OBSOLETE

Schedule Number: NC1-090-82-06

Some items in this schedule are either obsolete or have been superseded by new NARA approved records schedules. This information is accurate as of: 7/28/2023

ACTIVE ITEMS

These items, unless subsequently superseded, may be used by the agency to disposition records. It is the responsibility of the user to verify the items are still active.

All items except those listed below are active

SUPERSEDED AND OBSOLETE ITEMS

The remaining items on this schedule may no longer be used to disposition records. They are superseded, obsolete, filing instructions, non-records, or were lined off and not approved at the time of scheduling. References to more recent schedules are provided below as a courtesy. Some items listed here may have been previously annotated on the schedule itself.

Item 1 is superseded by DAA-GRS-2016-0015-0005

Item 6 is superseded by NC1-443-84-02

/.	Part II: Research Data This Request for Records Disposition Authority is to amen the existing disposition authority [NC1-90-77-2:306(2)] for working files of experimental or statistical data. These files are used in the research programs of the National Institutes of Health. The proposed amendment is to allow for disposal of original records when they have been microfilmed according to the standards of 41 CFR 101-11.506. Research data collected or generated in majoresearch projects are microfilmed when necessary to facilitate storage retrieval and distribution. The research data records are retained, at the discretion of the project leader, solely for use in the research project. They are distinct from records which document patient care and from records kept for accounting, archival and other legal reasons; therefore, if the microfilm records satisfy the need for the data in research, there is no need to keep the originals. NC1-90-77-2:306(2) has been incorporated into the NIH Records Control Schedule as item 3000-G-3. The proposed amendment is to add subitem c: 3000-G-3 Records of basic experimental and statistical data collected or developed for each research		
	project. Any or all of the following are included: logs, notebooks, cards, forms or other, media on which observations and data are recorded; records on patients or normal volunteers of interviews, questionnaires, examinations, or laboratory tests, including machine readings and data from slides, specimen or cultures; copies of abstracts of non-clinica records on individuals such as birth and death certificates; records on individuals processing and analyzing data related to or resulting from the project, including indexes, code cards and sheets, charts, graphs, punch cards, computer output in paper or microfilm form, tabulations, diagrams or drawings, etc.; and intermediate compilations or analyses and progress reports with feeder reports and background material. Note: The official medical records of Clinical Center patients are not included in this series	1
