Background Information **The MDR System (previously known as Medicaid Drug Rebate Initiative) supports the Medicaid Drug Rebate program, which enables states to receive Federal funding for outpatient drugs dispensed to Medicaid patients. Drug manufacturer product and pricing information is used by the system to calculate Unit Rebate Amounts (URAs) for drugs on a quarterly basis. Rebate information is sent to the states, who invoice drug manufacturers for the appropriate rebate amounts. Drug manufacturers submit updated product and pricing information (average manufacturer price, Best Price, Customary Prompt Pay Discount, Nominal Price) via the Drug Data Reporting System.**
