	<p>This schedule revises Item 2-33 of the CDC Records Control Schedule B-321, Manuscripts and Final Reports of Research Projects.</p> <p>For clarification purposes, the item is renamed, Final Reports and CDC Funded Manuscripts from Research Projects.</p> <p>In addition, an item is included which allows the permanent retention of substantive supporting records which add to the further understanding of the final report. Finally, the retention period for "routine" supporting records has been reduced from 10 years to 5 years.</p> <p>This revision was necessary so that records such as the "background records to the Surgeon General reports" were designated as permanent instead of applying a 10 year retention. These records clearly add to the understanding of the development and conclusions reached in the Surgeon General Reports which cover a wide variety of public health issues and problems.</p> <p>The proposed revised schedule and old schedule are attached.</p> <p style="text-align: center;"><i>cc Agency, NR, NWMD, NWMA</i></p>	NC1-90-78-1, Item 64
