

# NOTICE - SOME ITEMS SUPERSEDED OR OBSOLETE

Schedule Number: N1-442-05-001

Some items in this schedule are either obsolete or have been superseded by new NARA approved records schedules. This information is accurate as of: 1/4/2022

## **ACTIVE ITEMS**

These items, unless subsequently superseded, may be used by the agency to disposition records. It is the responsibility of the user to verify the items are still active.

All other items remain active

## **SUPERSEDED AND OBSOLETE ITEMS**

The remaining items on this schedule may no longer be used to disposition records. They are superseded, obsolete, filing instructions, non-records, or were lined off and not approved at the time of scheduling. References to more recent schedules are provided below as a courtesy. Some items listed here may have been previously annotated on the schedule itself.

Item 2 superseded by DAA-GRS-2016-0016-0002

## **1. Employee Exposure and Medical Records (NIOSH, N1-442-98-1, Item 2), Item 2-80 in the CDC RCS B-321**

This item covers the employee medical and exposure records that employers must transfer, or offer to transfer, to NIOSH when a company closes and leaves no successor company, in accordance with Occupational Safety and Health Administration (OSHA) regulations 29 CFR 1910.1001-1910.1450. The records may contain documentation including workplace monitoring of toxic substances and harmful physical agents, biological monitoring results, medical examinations, medical questionnaires and histories, treatment records, and material data safety sheets. NIOSH assumes custody of the records to ensure the Institute's access to occupational records that may have research value.

**A. Exposure and Medical Records.** Employee records that systematically document to exposure and medical condition and treatment of employees that NIOSH determines meet the definitions in 29 CFR 1910.1001-1910.1450 and have potential research value.

**Authorized Disposition:** Transfer to the FRC after evaluation and analysis and destroy 30 years after NIOSH assumes custody (Note: Destruction date to be provided by NIOSH when records are retired to the Federal Records Center (FRC)).

**B. Employee Medical Records.** Employee records that NIOSH determines have no research value because (1) they do not meet the definition of the types of records specified in 29 CFR 1910.1001-1910.1450 to be transferred to NIOSH, or (2) they are incomplete or were not systematically collected according to standard protocols and therefore are unsuitable for research.

Authorized Disposition: Destroy upon determination that records do not document exposure or medical condition and treatment or have no research value. Transfer of these records to an FRC is not authorized.

## **2. Electronic Mail and Word Processing System Copies**

**A.** Copies that have no further administrative value after the recordkeeping copy is made. Includes copies maintained by individuals in personal files, personal electronic mail directories, or other personal directories on hard disk or network drives, and copies on shared network drives that are used only to produce the recordkeeping copy.

DISPOSITION: **TEMPORARY.** Delete within 180 days after the recordkeeping copy has been produced.

**B.** Copies used for dissemination, revision, or updating that are maintained in addition to the recordkeeping copy.

DISPOSITION: **TEMPORARY.** Delete when dissemination, revision, or updating is complete.
